PROFESSIONAL SUMMARY

Recent Graduate with a strong academic background in Information Technology (BSc, 2023). Highly proficient in core technical basics including HTML/CSS, with proven competence in Adobe Photoshop, demonstrated ability to work under pressure, and certified competence in Microsoft Office Suite.

CORE SKILLS

- **Technical Skills:**
  - Web Development: HTML & CSS (Responsive Design), JavaScript (Foundational).
  - Software/Tools: Photoshop, MS Office Suite (Word, Excel) Certified experience certificate.
  - Programming Languages: Java (Good), C++ (Good).
- **Soft Skills & Professional Attributes:**
  - Working Under Pressure: Maintaining quality and adhering to deadlines.
  - Problem-Solving: Complex technical analysis and effective solution delivery.
  - Teamwork & Communication: Effective collaboration across cross-functional teams.
  - Adaptability & Learning: Rapid integration of new technologies, tools, and best practices.
  - Quality Focus: Attention to detail, superior quality, and adherence to project standards.

PROJECTS

- **Personal Gallery Website:**
  Developed an updated version of the personal portfolio, demonstrating front-end efficiency (performance and code quality). The structure utilized Flexbox and CSS Grid for full responsiveness. Relied on CSS Variables for code maintenance and Preconnect for fast font loading. Used JavaScript to improve UX, including a CV download button for easy access.
- **MAL3BAK Website - Stadium Booking:**
  Development of a mobile-first front-end for the MAL3BAK website, aiming to facilitate the stadium booking process. The focus was on responsiveness and code efficiency, using HTML5/CSS3 Variables/Vanilla JavaScript for dynamic navigation and search filters.
- **CV Website:**
  Developed a responsive CV file, demonstrating efficiency in HTML5 and CSS3. Focused on code quality, utilizing CSS Variables for maintenance and Flexbox for responsiveness across screens. Utilized the Font Awesome library and integrated external source links.
